Jamberry nail wraps are made with durable materials, so smudges and streaks are never an issue, and can last for up to two weeks on fingernails and four weeks on toes. With over 300 nail wraps in an incredible variety of designs, you can customize, pair, and layer Jamberry nail wraps to create a look that's all your own—all from the comfort of your home.

In addition to nail wraps, we also offer a variety of professional nail lacquers and incredible gel enamels for a fun way to create an accent nail or even paint those pesky pinky toes. Shaklee believes that nature holds the answers to a healthy and productive life. By using pure and potent ingredients and the foremost scientific research, we formulate nutrition products that are truly life enhancing. For 100 years now, Dr. Shaklee's philosophy has guided everything we do. He believed that each of us could make a healthy difference in the world. His vision first took shape in 1915 with his development of one of the first multivitamins in the U.S. It continued through the next four decades as he exchanged ideas with thought leaders, researched and published four books, explored the science of nature, and considered ways to help people achieve their best. That vision took physical shape in 1956 when he founded Shaklee Corporation. Since then, it has grown in ways even he might not have believed.

Essential oils have also been used for thousands of years for cosmetic purposes, as well as for their spiritually and emotionally uplifting properties. Young Living has always been at the forefront of bringing this ancient tradition to modern users, introducing millions to a total mind/body wellness they may never have dreamed possible.

Primarily extracted through careful steam distillation but also through cold pressing, the purest essential oils are far more powerful than the botanicals from which they were extracted. Any time you hold a bottle of our powerful essential oils, you are holding nature's pure essence.
