Unpacking the New Home Health CoPs

Setting Your Agency Up for Success

April 5, 2017 ♦ Albany Marriott – 189 Wolf Road ♦ Albany, NY
8AM – Registration/Breakfast 9AM–4PM Program (Lunch Included)

HCA presents our second installment of education to assist providers with the sweeping new Home Health Conditions of Participation (CoPs).

These CoPs, finalized in December, are the most significant federal regulatory changes in nearly 30 years, and providers have only a few months to get ready!

We recently offered an initial overview webinar setting the stage for this more in-depth, daylong session in Albany (on April 5) that will truly “unpack” the numerous CoP regulatory changes confronting agencies.

Veteran home health consultant Trish Tulloch will drill into the specific Condition revisions and updates that impact the operational and clinical practice of virtually all home care agencies nationwide.

Tulloch will also equip you with the tools, resources and strategies to develop and fast-track a streamlined action plan for process improvements to ensure compliance with all required elements by the July 13, 2017 implementation date. She'll specifically draw on insights from peer agencies that have already begun moving quickly with their compliance and readiness activities.

This program will enable you to:

- Detail all changes and updates to the final Home Health Conditions of Participation;
- List provider actions to address and implement each Condition update;
- Discuss operational and clinical practice refinements to meet the new Conditions;
- Prioritize action plan initiatives to successfully comply with all new standards and updates;
- Access Tools and Tips to Comply with the New Home Health Conditions of Participation.

Who Should Participate?

CEOs; COOs; Administrators; Clinical Supervisors; Directors; Educators, Performance Improvement Staff and those responsible for the oversight and delivery of care and services in the certified home health care setting.
