

Legislators: Giovanni Needs Your Voice

To Save New York's **Home Care System** from the **Disproportionate \$1 Billion Assault** by Governor Cuomo's Medicaid Redesign Plan

Two and a half year-old Giovanni was born with one kidney and the other not fully developed and is an end stage renal disease patient. Giovanni is non-verbal but is able to communicate his needs successfully through the help of his home care workers who have assisted him in developing receptive language skills.

Giovanni's home care allows him to live at home, improves his quality of life, and **saves Medicaid dollars** by keeping him out of the hospital.

Speak up for Giovanni by standing up for home care. Reject the Governor's \$1 Billion Assault on home care and raise your opposition to the home care MRT proposals within your legislative conference.
