

# Four-Part Wound Care Webinar SERIES

June 2, 2020 ♦ June 9, 2020 ♦ June 16, 2020 ♦ June 23, 2020

## Webinar 1: Risk Assessment

Tuesday, June 2, 2020 • 11:00am – 12:00 pm EST

The home environment creates unique challenges to prevent pressure injuries and/or heal pressure injuries. This program will review what puts your clients at risk for pressure injuries and interventions and equipment needed to prevent and treat wounds in the home environment.

Program Objectives:

- Identify risk factors that place a client at risk for pressure injury development or pressure injury decline.
- Discuss the correlating interventions that will minimize, stabilize, or eliminate identified risk factors.
- Demonstrate how to utilize a risk assessment to ensure appropriate equipment and environment for the client to remain in the home.

## Webinar 2: Assessment & Staging of Pressure Injuries

Tuesday, June 9, 2020 • 11:00am – 12:00 pm EST

Accurate assessment of a pressure injury is important as it evaluates the effectiveness of the overall course of treatment and determines the type of topical support needed. This course will provide the participant with the information needed to complete a comprehensive assessment of a pressure injury, including staging. This course will also discuss OASIS-D coding of the staging system.

Program Objectives:

- Describe etiologies of pressure injuries.
- Assess, describe, and document the physical characteristics of a pressure injury.
- Identify the appropriate stage of the pressure injury.

## Webinar 3: Topical Management of Pressure Injuries

Tuesday, June 16, 2020 • 11:00am – 12:00 pm EST

Evidenced based principles of moist wound healing are presented in this session. Strategies for the identification and management of infection, and the debridement of slough and eschar will be addressed. Topical dressing categories will be defined, and their appropriate use discussed.

Program Objectives:

- Define effective topical treatment strategies for pressure injuries, utilizing the principles of moist wound healing.
- Discuss when debridement of pressure injuries is necessary and the different methods of wound debridement.
- Describe signs and symptoms of pressure injuries infection and treatment options.

## Webinar 4: Assessment & Treatment of Lower Extremity Ulcers

Tuesday, June 23, 2020 • 11:00am – 12:00 pm EST

This session will help clinicians differentiate arterial insufficient ulcers, venous stasis ulcers and peripheral neuropathic/diabetic ulcers. The session will discuss how assessment and treatment strategies differ for each of these wound categories. It will discuss lymphedema identification and management. This session will also discuss which lower extremity ulcers are captured on OASIS-D.

Program Objectives:

- Distinguish etiologies of lower extremity ulcers.
- Define the characteristics of venous (stasis), arterial, and peripheral neuropathy/diabetic ulcers and lymphedema.
- Describe effective strategies to manage lower extremity ulcers.

Assessment & Treatment of Lower Extremity Ulcers**

## Presented by

*Jeri Ann Lundgren, RN, BSN, APRN, PHN, CWS, CWCN, CPT has been working in Post-Acute Care since 1990, specializing in wound care nationally since 1994. She is board certified as a CWS (Certified Wound Specialist) by the American Board of Wound Management and a CWCN (Certified Wound Care Nurse) by the Wound, Ostomy and Continence Society. Her CWCN certification designates her as an Advanced Practice Nurse specializing in wound management. Currently Ms. Lundgren is the President of Senior Providers Resource consulting firm.*

**CONTINUING EDUCATION:** This program is offered in conjunction with the Minnesota HomeCare Association (MHCA). MHCA is an approved as a provider of Continuing Education Credits by the Minnesota State Board of Nursing. Each course offering is approved independently for 1.0 contact hours. It is the responsibility of the participant to assure that this program meets the licensing and continuing education requirements of their state board and to retain the required documents in his/her personal file. Attendees must participate in the entire presentation in order for contact hours to be awarded – partial credit will not be available. To apply for nursing contact hours, within one week following webinar participation, a completed sign-in sheet and evaluations from each individual must be returned to MHCA. Certificates will then be issued by e-mail.

**Confirmation:** Prior to each webinar, a Zoom Webinar link will be e-mailed to you. You will need to click on this link to access the webinar, a dial-in number and an access code to listen in via telephone, or you may listen via your computer's audio. You will also be sent any pertinent handouts, if available.

**Registration:** The registration deadline is May 25, 2020. Registrations may not be shared within or between agencies – registration provides one access login to the webinar. However you can gather any number of staff members to view/listen to the webinar using your single login. If you wish to have multiple participants login from different locations, it will require a separate registration fee for each connection. Please note: if your agency has sent in 1 registration but 3 people from your agency register through the link to access the webinar, your agency will be invoiced for the additional 2 logins.
