HCA is coming to your town this summer and we want to hear from you. No script, no topic off the table for this critically important dialogue between HCA staff and Association Members.

This is a proactive discussion with HCA to help formulate our collective strategy for the priority issues, challenges, needs and opportunities in the field. Say what's on your mind, present ideas, pose questions, and dialogue with HCA and your peers about important home care, hospice, FI, and MLTC issues. The more we can mutually share, the more effectively we can advocate together and for you.
