

Supporting Homebound Veterans-VSC

Supporting Homebound Veterans

The Home Care Association of New York State (HCA), HCA Education and Research (HCA E&R), and HCA member Selfhelp Community Services are operating a pilot of the Selfhelp Virtual Senior Center (VSC) specifically tailored to veterans. This pilot supports homebound veterans with daily peer socialization, wellness, cultural enrichment, professional assistance and additional services that will be specially tailored to veterans and their needs.

Funding for this program is made available through HCA E&R for Selfhelp's VSC services for veterans participating in this program.

Join This Special Opportunity for Veterans in Your Care

The "Virtual Community for Veterans" Pilot

HCA urges all home care providers, managed long term care plans, hospices, FI/Consumer Directed Personal Assistance Plans and home care waiver programs caring for veterans to join in this special effort to be part of the "Virtual Community for Veterans" Pilot.

This special support service is made possible for your veterans through a generous grant to HCA from the New York Health Foundation. The pilot supports homebound and medically needy veterans with daily peer socialization, self-care and wellness guidance, professional assistance, and an array of additional services specific to veterans' needs, interests, quality of life enrichment, and enjoyment.

How it Works / Access it Now – The pilot operates on the platform of the Selfhelp Virtual Senior Center (VSC), an outcomes-based social wellness platform, and is a pilot tailored specifically for veterans.

There is no fee for participation in the pilot, and the link to registration providing a step-by-step, facilitated walkthrough for sign up is below.
